

As a member of the Iowa Rural Water Association (IRWA), we value your expertise and ability to communicate with people who manage and operate small water and wastewater systems throughout Iowa. Because of this, we would like to invite you to submit an application to be a presenter at our 2022 Fall Conferences. Others will benefit from your experience while you make a valuable contribution to the water and wastewater professions in Iowa.

Please be creative and unique with your application and remember sessions should be tailored to water and wastewater subjects. Those in attendance will be Water and Wastewater System Operators. In order to offer CEUs to operators, presentations CANNOT be infomercials on your products but must contain pertinent, general information for operators in the state of Iowa. Applications must be typed and submitted on this form.
