

The Iowa Rural Water Association invites you to join us for a free workshop featuring presentations from Bolton & Menk.

This session will focus on resiliency and sustainability; and ensuring that your utility is prepared for the future. Find out why resilient and sustainable infrastructure are important for your water or wastewater utility and learn how to implement projects on a small or large scale to improve your system's outlook.

There will be classroom discussion with Q&A throughout the day.

Real People. Real Solutions.
