

The Iowa Rural Water Association invites you to join us for a free workshop featuring presentations from IRWA Field Staff Members, IDNR Field Office Staff and KLM Engineering.

This session will focus on IRWA equipment available for loan locally at the regional equipment facility. Also, additional equipment, technical assistance and emergency response services provided by IRWA. There will also be an overview of IRWA source water protection services. Representatives from the regional IDNR Field Offices will be on hand to give an update. KLM Engineering will wrap the training up with a session on the cost of doing nothing – putting off infrastructure maintenance until it is too late.

*This training brought to you through a grant by the National Rural Water Association and US EPA. Equal Opportunity Providers*

## CEUs

5 hours for Water Treatment, Distribution or 4 hours for Wastewater

Iowa Rural Water Association  
4221 S 22<sup>nd</sup> Ave. East
